

CCJs & Legal Notices

FullCircl Premium Data Extensions

Your FullCircl profile can now be enhanced to include information on County Court Judgements and Legal Notices.

Built for Compliance

Many companies include CCJ checks in their onboarding process, and when used in conjunction with Legal Notices (eg Winding Up Petitions), they provide critical data about a company.

FullCircl has been in the business of delivering relationship and opportunity insights relating to companies for over 10 years, and now offers the option for users to check compliance attributes within the same platform.

CCJ's and Legal Notices are available as a **Premium Data Extension Pack**. Contact your FullCircl Customer Success Manager for a demonstration. Other premium data extensions include Adverse Director History and US/Ireland country packs.

NB: The FullCircl:Connect platform additionally allows you to apply processing rules or provide alerts on these, and other data sources. Your CSM can help you to review these requirements.
